

DESCRIPTION

TRACE*LITE's latest generation of large glass refractor LED wallpack features an updated LED light engine that improves efficacy, lumen output and thermal management while still maintaining the consistency of our proven traditional housing. The RGL housing is constructed of die-cast aluminum in a dark bronze finish that provides durable protection against environmental conditions, corrosion and the elements. It is UL Listed for Wet Locations. RGL's light engine is protected by a high-impact borosilicate glass prismatic lens that maximizes light output for general purpose area and security lighting.
