### 315-1000W Vertical Lamp Concealed Vacuum Airflow Technology<sup>®</sup> Reflector

#### FEATURES

- Vertical lamp orientation provides longer lamp life, resulting in more cycles and less lumen depreciation between lamp changes
- Provides even lumen distribution without excessive dissipation, eliminating the “pyramid” effect
- Superior photometric performance creates a greater amount of uniform light nutrients
- Patented reflector design creates a more than 30% improvement in light output over traditional, vented hoods
- 8” removable ducts maintain 100% reflective capability and improve airflow efficiency which allows more hoods to be vented using fewer fans
- 8” removable louvered plates for use with no fans
- Cooler lamps and housings reduce heat load issues and the costs associated with resolving them
- Exceptional housing quality ensures reliability and durability, minimizing down time due to maintenance and cleaning
- Durable black powder coated finish
