

IMPORTANT SAFEGUARDS READ AND FOLLOW ALL SAFETY INSTRUCTIONS.

When using electrical equipment, basic safety precautions should always be followed including the following:

- **DISCONNECT AC POWER SUPPLY BEFORE SERVICING.**
- Installation and servicing of this equipment should be performed by qualified service personnel only.
- Ensure that the electrical wiring conforms to the National Electrical Code NEC® and local regulations if applicable.
- Do not mount near gas or electrical heaters.
- Equipment should be mounted in locations and at heights where it will not be readily subjected to tampering by unauthorized personnel.
- The use of accessory equipment not recommended by the manufacturer may cause an unsafe condition.
- Any modification or use of non-original components will void the warranty and product liability.
- Do not use this equipment for other than intended use.

Drop Lens Installation Instructions

1. Start this installation after the fixture and refractor is completely installed, secure and powered off.
2. Find the metal clamp and drop lens from the packaging.
3. Position the drop lens to the refractor bottom surface and align the mounting flanges (Fig. 1).
4. Expand the metal clamp (Fig. 2) and position it over both the refractor and the drop lens mounting flanges and clamp them together.
5. Ensure the metal clamp is fully engages the flanges and spring retainer is secure.
5. Check security.
6. Installation complete (Fig.3).
