

# GUARDIAN

**THE FUTURE  
OF EMERGENCY  
LIGHTING IS NOW**

## **MANUAL CODE COMPLIANCE TESTING & REPORTING IS HISTORY.**

**Exitronix** intelligent emergency lighting solutions are designed to be **controlled entirely from your tablet**, enabling you to access the **Guardian G3** from your desk.

By hosting **G3** locally, you can bypass your IT department. The data is securely stored on your gateway, **providing utmost network protection** against potential hackers.

## **SAVE OVER \$100 PER UNIT PER YEAR**

- **Save on operational and maintenance costs**, eliminating the need for manual collection and recording of data
- **Test, monitor, and pull reporting via software on your tablet** within the building, completely eliminating the disruption of your operations
- Benefit from having **advanced awareness of failure statuses**, enabling fixtures to be repaired immediately, enabling you to be prepared for inspection
- **Combat personnel risk** by mitigating unnecessary ladder climbing

**FEEL SECURE** IN THE KNOWLEDGE THAT GUARDIAN G3 IS PERFORMING YOUR EMERGENCY LIGHTING TESTING WITH **100% ACCURACY.**

UP TO  
**100 DEVICES**  
PER GATEWAY

1 PRIMARY AND UP TO  
23 SECONDARY GATEWAYS

UP TO  
**2,400 DEVICES**  
PER LOCATION

A group of **connected devices** that act as a **single network**.

## BUILD A TRULY SMART BUILDING

- **Up to 100 emergency lighting units** can exchange data on one gateway
- **Scalable Zigbee mesh network** makes adding fixtures easy
- **Extronix** products can help you address requirements in **LEED® building certification**, and help you to capitalize on government rebates

## G3 THE SOFTWARE KEEPS IT SIMPLE

- **Easily access your device data** from a centralized location
- Safely import your floor plan
- Drag and drop fixtures onto your floor plan
- **Schedule tests** to select or all fixtures
- Schedule **automated reporting** at desired intervals

**SCAN CODE**
